I don't want to add images to web just to use those methods. I was wondering if there is a way to do this? Thanks. A: in Matlab there are two builtin functions for image processing: You can also use the source code of those functions, it is easy to implement your own image processing method. the first one is to resize an image, the second one is for rotating and cropping the image. Q: A problem on infinite σ -algebra generated by a finite set Consider $\mathcal{A}_1 = \{ A_1, A_2, A_3, \dots \}$, where each A_i is a
