webharvy v5.5.0.168 Rus Portable by Maverick webharvy v5.5.0.168 Rus Portable - a utility for checking the Internet connection from webarvy. It will help you easily detect and fix internet connection problems. You can check both the computer itself and the Internet gateway, server (or name server), proxy, firewall or router (including if you have a PPPoE connection). You will be able to automatically fix some problems (server or gateway shutdown) and continue transferring data.
